PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in Python, SQL, databases, and full-stack application development. Strong foundation in data structures, software engineering, and data-driven problem solving, with experience building and deploying practical applications.

EDUCATION

B.Tech – Computer Science and Engineering

Techno International Newtown, Kolkata

2023 – 2027

CGPA: 7.1/10

Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Artificial Intelligence

Higher Secondary (Science)

Taltala High School

2020 – 2022

Percentage: 76%

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, JavaScript, TypeScript

CS Fundamentals: DSA, Data Warehousing, DBMS, Operating Systems, Computer Networks

Databases: SQL, MongoDB, Firebase, Data Processing

AI & ML: Google Gemini API, OpenRouter Provider, LangChain, RAG, NLP, OCR

Cloud & Tools: AWS, Docker, Git, GitHub, Vercel, Render, Firebase Hosting

Web & Backend: React.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS, Vite

PROJECTS

ConstructAI OS | Enterprise Intelligence Platform

Live Demo

- Built a document processing platform using React, Node.js, and MongoDB to extract, organize, and manage information from EPC project documents.
- Developed OCR-based extraction workflows to convert unstructured documents into searchable text and structured project information.
- Built a LangChain-based RAG pipeline with Google Gemini for context-aware document search, project Q&A, and automated summarization across processed documents.

Mindovio | Intelligent Learning & Assessment Platform

Live Demo

- Engineered a learning platform leveraging React and Google Gemini to generate structured exam notes, adaptive mock tests, interactive diagrams, and personalized learning insights.
- Developed REST-based application workflows for processing user inputs and delivering dynamically generated educational content through a responsive interface.
- Implemented Progressive Web App support, KaTeX rendering, and Mermaid diagrams to enhance the learning experience with offline capabilities, PDF export, and responsive themes.

ACHIEVEMENTS

- Qualified for the ET AI Hackathon 2026 for developing ConstructAI OS, an AI-powered enterprise intelligence platform.
- Solved 250+ Data Structures & Algorithms problems on LeetCode.

EXPERIENCE & LEADERSHIP

Campus Ambassador | Techfest, IIT Bombay

Jul 2025 – Dec 2025

- Selected as Campus Ambassador for Asia's largest science and technology festival; drove event promotion and campus-level outreach.

Promotional Team Member | GDSC, Techno International Newtown

Feb 2024 – Present

- Organized coding events, hackathons, and peer learning sessions, boosting participation from 150+ students.
